

# COVER LETTER

Dear Sir\Madam,

I am writing to express my interest in the Software Engineer position at your company as advertised. With a Bachelor's degree in Engineering from Bharathidasan Engineering College and recent completion of a Full Stack Java Developer course at KodNest Technologies Private Limited, I am excited to bring my skills and passion for web development to your team.

During my training at KodNest, I gained hands-on experience in HTML, CSS, JavaScript, React.js, and Bootstrap, equipping me with the tools needed to create responsive and dynamic web applications. My experience as a Front End Developer at Tech Storey Private Limited allowed me to apply these skills in a professional setting, where I contributed to projects like 'Trap Music' and led the development of the 'Mint District' website application, focusing on user-centric design and performance optimization.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the needs of your team.

Warm regards,

Prasanth.J.G
